DANNI'S BAR CASE

Danni's Bar was created around one simple idea: building a place where younger and older generations could both feel at home together.

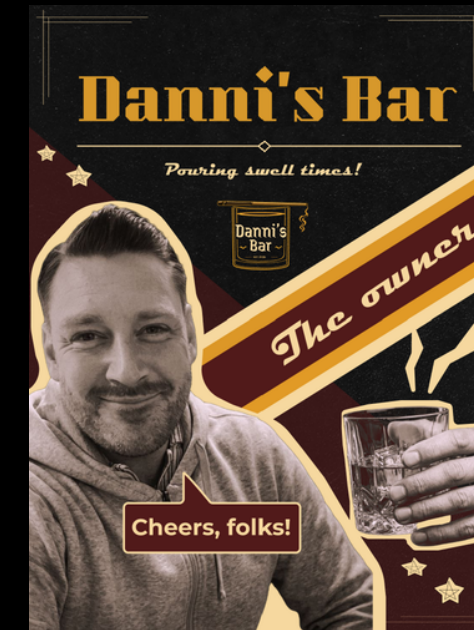

Shmel Agency helped to develop the bar concept from the ground up. We combined market research and competitor analysis with brand strategy, visual identity, interior design, social media direction, and marketing ideas.

The final product blended vintage iconography and local nostalgia with a fresh modern design language, creating a bar that feels familiar without feeling outdated

DANNI'S BAR

- Branding and marketing strategy
- SMM design
- Instagram and Facebook from scratch
- Bar interior design
- Logo design
